Your Ginning Solicited

During the summer I spent a considerable sum on my ginnery putting everything in the best possible order, adding several new and up-to-date features. Our five gins of the most modern type enable us to gin and pack about 50 bales a day, giving good sample and ginning seed clean.

From the time we started everything works in the best of order. I have engaged Mr. Harry Culbreath, who has proven himself to be a very capable man, to operate my gins this season. Bring us your cotton. We guarantee satisfaction. My prices are the same as last season. I bought bagging and ties early in the summer before the advance, and can furnish them at the old price.

I pay the highest market price for seed or will exchange meal and hulls for seed.

Your patronage solicit.
